snowline CHAINSEN

all year traction

Just put snowlines on and enjoy the winter! Doesn't matter whether they are used on ice, firm snow or scree, snowline Chainsen spikes offer superior traction. They can be worn with mountaineering boots, insulated winter boots, sneakers or even trail running shoes - perfect for hiking, traversing snow fields, running, Nordic walking or working on ice and snow. The elastomer structure makes snowline spikes easy to put on and take off in seconds!
Lightweight, handy stuff case included

Attention: Should not be substituted for crampons in steep terrain. All snowline chainsen models in our sales program are CE certified and approved by TÜV Süd.

3909	snowline Chainsen Light XL	44 – 48	43 – 47	270g

snowline spikes are the winners' choice for the already legendary „Streif Vertical Up" race in Kitzbühel. The infamous downhill race course with a maximum inclination of 85 % and a length of 3.3 kms has to be mastered form the bottom to the top.

snowline Spikes Chainsen City

Snowline chainsen CITY provide perfect traction black ice or snowy paths in flat or moderate terrain.
The highly flexible elastomer rubber fits snugly on different kinds of footwear, even on heeled shoes.

It can be put on and off in seconds, without any straps and buckles.

Extremely lightweight, just 60 g / pr. (size M)

Stored in a small stuff-sac with draw-cord closure.

item#	model	shoe size	weight
