

Granger's®

PRODUCT CARE GUIDE

The science of
protection.

THE BENEFITS OF PRODUCT CARE.

Grangers helps your gear remain breathable and water-repellent – keeping you warmer and drier during all of life’s adventures...

Outdoor apparel uses a water-repellent finish to keep you dry. This finish forces water to bead away when it rains, while also allowing water vapour to escape – keeping you dry inside and out.

Over time, the finish can wear away, causing your gear to absorb water rather than repelling it. This stops your gear breathing, leaving you feeling clammy.

Thankfully, restoring your waterproof gear is easy with Grangers. Whether your gear simply needs cleaning or fully reproofing, our products can help.

The science of protection.

WHY CHOOSE GRANGERS?

Grangers has a heritage spanning 80 years, and a passion for providing you with the best protection possible. We were the first aftercare company to develop water-based protection products, and more recently, we have developed a completely fluorocarbon-free range of products as part of an ongoing commitment to improved environmental awareness.

Grangers was the first aftercare company to be awarded bluesign® approved status. bluesign® is a widely recognised independent tool that certifies the eco-friendliness of an entire production chain. This results in cleaner, safer, and more environmentally friendly finished goods. For more information please visit www.bluesign.com.

At Grangers, we've always been committed to providing greener solutions to outdoor problems. That's why we developed APT – a unique blend of fluorocarbon-free polymers designed to provide a highly breathable and effective water-repellent finish for all outdoor gear. APT (or Acrylic Polymer Technology) closely matches the performance and durability of fluorocarbon waterproofers while being much more environmentally conscious.

With our water-based, fluorocarbon-free, and aerosol-free range of protection products, our bluesign® approved status, and our ISO 14001 environmental accreditation, it's clear that we're as committed to sustainability and the environment as we are to delivering unrivalled product protection.

The science of
protection.

CHOOSING THE RIGHT GRANGERS PRODUCT.

When caring for your outdoor gear, it's important to use the right product and application process to help maximise performance...

Clothing

Whether you wish to restore a waterproof coat, merino base layers, or a down-filled jacket, our range of clothing care products – including both cleaning and waterproofing solutions – can help. All our products are suitable for use on Gore-Tex® and eVENT® garments, and come in spray-on and wash-in variations.

Footwear

Footwear is one of the hardest working parts of your outdoor kit – and it suffers every mile you hike, run, or trek. Fortunately, Grangers range of footwear products can help clean, protect, and restore all shoes and boots – whether they're made of leather, suede, nubuck, or fabric.

Equipment

As well as providing protection to both clothing and footwear, our range of protection solutions also includes products to care for tents, rucksacks, and accessories – whether they need cleaning, reproofing, or refreshing.

Application

At Grangers, we've worked hard to ensure that our products can be applied in a variety of ways – so that you can care for your garments regardless of what they are. To discover which of our protection solutions are suitable for your gear, look out for icons similar to the four below:

Wash-In

Brush-On

Sponge-On

Spray-On

CLOTHING / CLEANING

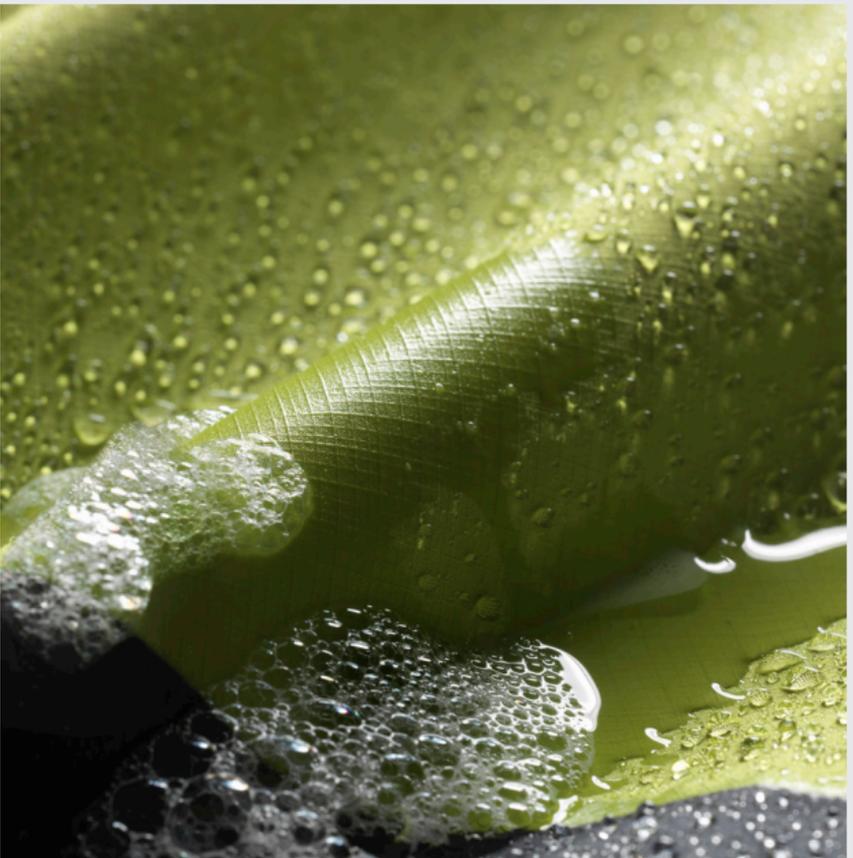

Performance Wash

A wash-in technical cleaner designed to remove dirt, odours, and harmful residues left behind by regular laundry detergents. Restores breathability and revitalises existing water-repellent finishes. Can also be used to prepare a garment for future waterproofing treatments.

Suitable for

How to use

CLOTHING / CLEANING

Down Wash

A specialist wash-in detergent designed to clean all down-filled items, including sleeping bags. Removes dirt, odours, and harmful residues left behind by regular laundry detergents – while also protecting the hydrophobic and insulating properties of the garment's down filling.

Suitable for

How to use

Merino Wash

A unique wash-in detergent formulated to clean and protect all woollen and merino clothing. Removes dirt, odours, and harmful residues left behind by regular laundry detergents, while also improving the wicking and insulating properties of your garment. Contains natural cedar extract to repel moths.

Suitable for

How to use

CLOTHING / CLEANING

Down Wash Kit

An all-in-one product protection package. Pairs a full-sized bottle of Granger's Down Wash, to safely clean and care for your down-filled garments and accessories, with three reusable dryer balls to prevent down clumping while tumble drying. Cleans, deodorises, and returns down-filled garments to their original levels of performance.

Suitable for

How to use

CLOTHING / PROTECTION

Clothing Wash + Repel

A unique two-in-one solution unlike any other product on the market. Condenses the two stages required for product protection by cleaning and reproofing all outdoor clothing in a single wash cycle. Fluorocarbon-free, and suitable for Gore-Tex®, eVENT® and all other outdoor garments.

Suitable for

How to use

Clothing Repel

A wash-in waterproofing product suitable for all technical and outdoor clothing. Adds a durable water-repellent finish to help protect all clothing without needing heat activation.

Fluorocarbon-free, and suitable for Gore-Tex®, eVENT® and all other water-repellent garments.

Suitable for

How to use

CLOTHING / PROTECTION

Performance Repel

A spray-on waterproofing product designed to add water-repellency to any garment that may not be suitable for machine washing. This product is also recommended for garments with moisture wicking technologies. Adds a durable water-repellent finish without needing heat activation.

Fluorocarbon-free, and suitable for Gore-Tex®, eVENT® and all other water-repellent garments.

Suitable for

How to use

USING GRANGERS CLOTHING CARE PRODUCTS.

CLOTHING / HOW TO USE

Washing Machine

All Grangers wash-in products are designed to work at 30°C (86°F). Simply place the product into the washing machine's drawer before washing as per the instructions on the garment's care label.

TIP: Ensure drawer is free from detergent residue.

Spray-On

To treat clothing with Grangers spray-on products, spray on from around 10-15cm (4-6 inches) away. Wait for a moment before wiping off any excess product or drips.

TIP: Hang garment for better results.

CLOTHING / HOW TO USE

Hand Wash

Pour the product into water before adding the garment to be cleaned. Agitate the garment briefly before leaving it to soak. Finally, rinse the treated garment thoroughly to remove any remaining product.

Drying

If tumble drying your garments, use a low/ medium heat and dry for up to an hour. Ensure garments are completely dry before use. When drying down-filled items, agitating the garment periodically (or using dryer balls) will prevent clumps forming.

FOOTWEAR / CLEANING

Footwear + Gear Cleaner

A powerful spray-on cleaner designed to remove dirt and odours from all types of footwear and gear. Cleans without damaging any existing water-repellent finishes. Safe to use on all footwear and equipment made from leather, suede, nubuck, and fabric, and all shoes and boots with Gore-Tex® linings.

Suitable for

How to use

Footwear Brush

A versatile brush designed to aid in the efficient removal of dust and dirt from all footwear and accessories – either as part of a longer cleaning regime or while on the road.

Suitable for

FOOTWEAR / PROTECTION

Footwear Repel

A spray-on waterproofing solution suitable for use on all leather, suede, nubuck, and fabric footwear. Adds a durable water-repellent finish to protect against rain, stains, and accidental spills. Works perfectly with all shoes and boots, including those with Gore-Tex® linings.

Suitable for

How to use

Leather Conditioner

A soft, traditional cream that provides leather footwear with protection against rain and stains. Perfect for providing nourishment, water-repellency and for general maintenance – and much easier to apply than jar- or tin-based waxes. Specially formulated for breathable membrane linings. Suitable for Gore-Tex.

Suitable for

How to use

FOOTWEAR / PROTECTION

G-Wax

A traditional wax product designed to protect all leather footwear against rain and stains. Provides protection, conditioning, and restores the look and feel of your shoes and boots. Suitable for all leather footwear. Contains beeswax.

Suitable for

How to use

Paste Wax

A soft wax-based product designed to offer maximum levels of nourishment and protection to all smooth leather footwear. Perfect for those situations where breathability can be sacrificed in exchange for unparalleled water-repellency, or for providing deep conditioning to boots.

Suitable for

How to use

FOOTWEAR / MAINTENANCE

Odour Eliminator

An odour-neutralising spray suitable for use on all outdoor clothing, footwear, and accessories. Perfect for refreshing garments between washes, when you're unable to wash for a while, or when machine washing isn't advised. Formulated to work with all water-repellent finishes with no loss in effectiveness.

Suitable for

How to use

Rubber Boot Care

A spray-on product designed to remove the naturally-occurring 'blooming' that can develop on all rubber products. Perfect for cleaning away mud, muck, and other dirt, and for restoring the glossy finish of your rubber boots.

Suitable for

How to use

USING GRANGERS FOOTWEAR PRODUCTS.

FOOTWEAR / HOW TO USE

Clean

Always begin any footwear treatment by ensuring boots and shoes are dust, dirt, and residue free. Use Grangers Footwear + Gear Cleaner for best results.

Rub in

Apply wax and paste products sparingly, using a clean cloth. Rub in a circular motion and ensure all seams are treated.

Spray on

Spray-on products should be applied from 10-15cm (4-6 inches) away. Wait a moment before wiping off any excess product.

TENT + GEAR / CLEANING

Tent + Gear Cleaner

A sponge-on cleaner designed to clean dirt, dust, and other impurities from tents, awnings, and other outdoor equipment. An important first step when waterproofing outdoor fabrics, and the perfect way to prolong the lifetime of an existing DWR finish.

Suitable for

How to use

TENT + GEAR	 Tent+Gear Cleaner	 Tent+Gear Repel	 Tent+Gear Repel
Cotton, polycotton & canvas tents			
Synthetic tents + awnings			
Rucksacks			

TENT + GEAR / PROTECTION

Tent + Gear Repel Spray-On

A spray-on waterproofing product formulated to add water-repellency to tents, awnings, and other outdoor equipment. Spray-on packaging for easier application – especially along seams and zips.

Suitable for

How to use

Tent + Gear Repel Paint-On

A paint-on waterproofing product designed to restore the water-repellent finish found on all tents, awnings, and other outdoor equipment. Suitable for use on all kinds of fabrics.

Suitable for

How to use

TENT + GEAR / HOW TO USE

Clean

Remove any loose dirt or debris. Add 2 caps to 5 litres of water, before applying with a clean sponge or cloth. Rinse off.

Paint on

Paint on using broad strokes, taking care to rub in any droplets that may form. Allow to dry fully before use.

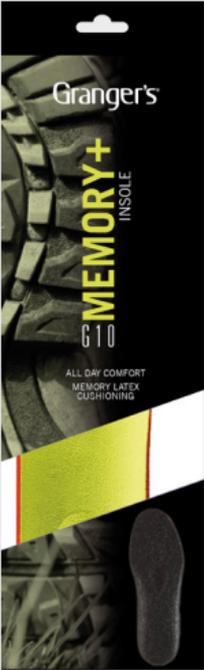

Spray on

Spray Tent + Gear Repel evenly over the surface of the material to be treated, taking care to rub in any droplets that may form. Allow to dry fully before use.

TIP: For best results use Tent + Gear proofers on wet fabric.

INSOLES

G10 Memory+

Carefully crafted to provide all-over support, these insoles wick away moisture in the shoe and feature 5mm thick memory foam cushioning for increased comfort. A non-slip base keeps the insoles secure underfoot.

Great for

G20 Trek

Incorporating dual-density foam for more precise footbed cushioning and a microfibre sheet to wick away moisture, these insoles provide enhanced day-to-day comfort when compared to similar products.

Great for

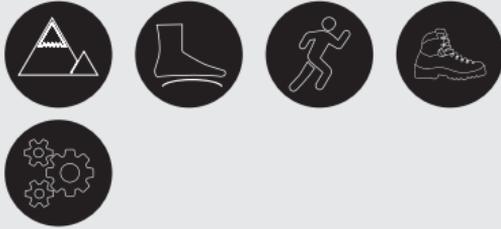

INSOLES

G30 Stability

Designed for more prolonged outdoor situations and scenarios than other products. These insoles offer support, comfort, and protection wherever you adventure. A winter version – with enhanced insulating properties – is also available.

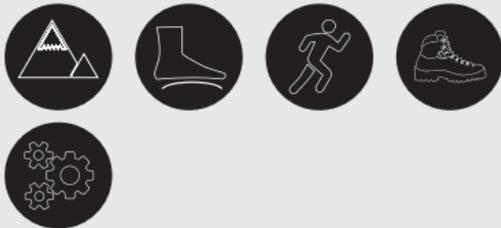

Great for

G40 Stability+

Carefully crafted to be the most comfortable insoles on the market. Supportive, protective, and comfortable, with enhanced wicking capabilities, a full-length EVA foot cradle, and increased arch support. Suitable for even the hardest of adventures, and the toughest trips.

Great for

INSOLES / BENEFITS

How it works

All Grangers insoles adapt the flat midsole of your footwear to better fit the shape of your foot – providing support, protection, and comfort in every step. All insoles feature:

Moisture-wicking microfibre sheet.

Contoured footbed for increased support.

Memory-foam or gel padding for comfort.

Breathable and durable felt base
