# Discovering Adventure

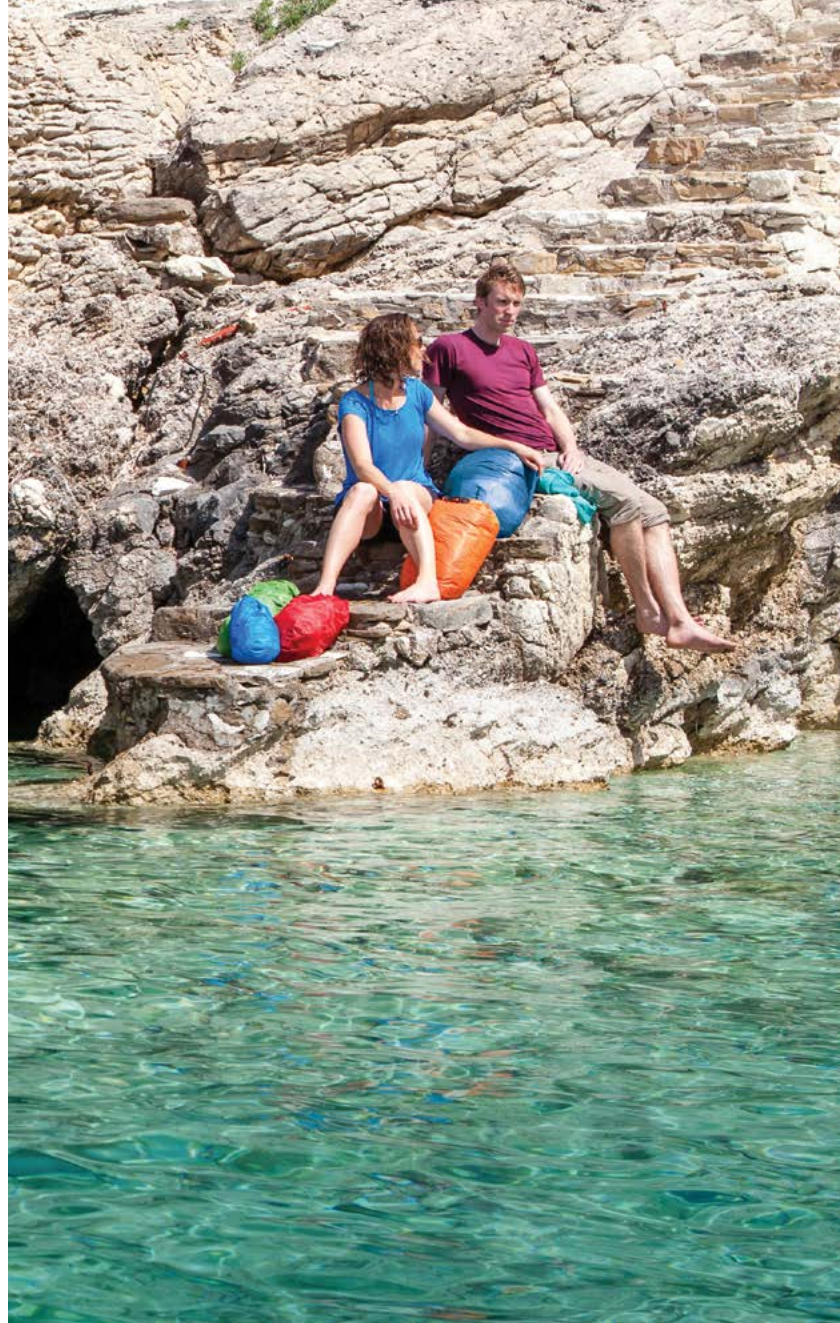

Break away from the everyday and set out to see the world. When you're on your travels, whether you're going solo or in a group, it's vital you have reliable and practical accessories by your side. As a team who experience wanderlust on a frequent basis ourselves, we know how to make kit that's fit for the job. Experience new cultures, see the sights, broaden your horizons and explore every corner of every continent- let nothing hold you back. Whether you're heading out on an adventure holiday, gap year, Duke of Edinburgh's Award expedition, or just stepping out your front door, Lifeventure is with you every step of the way.

## RFiD Protection

RFiD microchips can be found in most credit cards, passports and identity cards. They facilitate contactless cash transactions or wireless identity checking functions from up to 10 feet away. Identity thieves can use handheld RFiD readers which can scan the radio frequencies emitted by each chip to gain access to your personal data.

Lifeventure wallets utilise an RFiD blocking material. This unique fabric acts as a barrier against RFiD signals, dramatically reducing the risk of electronic identity theft.

## What is protected?

Bank & credit cards that show the wireless symbol and biometric passports that show the biometric scan symbol, as shown here.

# Washgear

Retaining our signature compact design and high performance, our original Trek Towels have been enhanced and redeveloped to bring a fresh new feel. Introducing a standardised sizing system across all types, the new range is ideal for heading to sunny shores, or embarking on a winter camping trip.

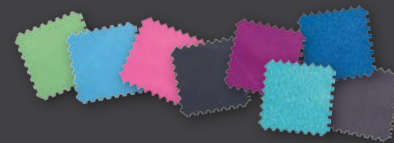

## Polygiene Treated

Our Trek Towels are treated with Polygiene, an antibacterial formula with a permanent effect. The broad spectrum anti-microbial treatment is integral to the fibres within the fabric. This treatment prevents the build up of odour causing bacteria, keeping your towel cleaner and smelling fresher for longer. Treatment is designed to last for the life of the towel.

## Optimised Sizing

Our Trek Towels come in four standardised sizes across all towel types; Pocket, Large, X Large and Giant. Each size has been carefully considered and selected to satisfy different uses and pursuits. This means that all of our towels can be easily compared in terms of pack size, absorption and weight, making the buying decision much simpler.

## Colours

Our Trek Towels are available in a whole range of colours which complement our washbags and other accessories. The range consists of an assortment of bright, eye catching colours ... and grey.

## Silk Liners

Silk is the strongest natural fabric in the world and is hypoallergenic making it soft and comfortable against the skin. Silk will keep you warm in the cold or cool in the heat, helping your body to regulate temperature effectively. The natural properties of silk ensure that perspiration is wicked away from the skin whilst being highly breathable and extremely lightweight.

## Polygiene Treated

Polygiene odour control technology utilises natural silver salt, a highly effective and permanent odour control agent, to safely inhibit the growth of bacteria and fungi. The broad spectrum anti-microbial treatment is integral to the fibres within the fabric. This treatment prevents the build-up of odour causing bacteria, keeping your Sleeping Bag Liner cleaner and smelling fresher for longer.
